

HOW WE WORK TOGETHER

A Few House Rules

These keep your content on time, on brand, and stress-free. They spell out exactly who handles what, so nothing gets missed.

1

Assets & Deadlines

All photos, videos, and brand assets must be uploaded to your designated Google Drive folder by **the 20th of the month before** posting. We can't build or schedule posts without them — if assets arrive late, your posts for the upcoming month may be delayed or missed.

2

Content Approval

Once your monthly content calendar is ready, you'll have **3 business days** to review and request edits. If we don't hear back within 3 business days, posts are scheduled as-is so we never miss your posting window.

3

Community Management PLEASE NOTE

These packages cover content creation and scheduling. They **do not** include replying to comments, DMs, or customer-service inquiries — you remain the direct voice of your community. Want us to handle it? Ask about our community-management add-on.

4

Billing & Cancellation

Services are billed **monthly, in advance**. We ask for **30 days' written notice** to cancel or pause, so we can wrap up any scheduled queues cleanly.
